

OHIO AWNING & MANUFACTURING COMPANY

Fabricator / Welder

Ohio Awning & Manufacturing Company has been manufacturing and installing commercial and residential awnings in Northeast Ohio for 160 years. Blending 19th-century American craftsmanship with 21st-century innovation to bring clients a wide variety of custom-made solutions ranging from awnings and canopies to all-weather curtains and more!

If you are a detail-oriented individual with a strong work ethic and a passion for quality craftsmanship, we want to hear from you.

Responsibilities

- Fabricate Awning framework from CAD / Shop drawing – Figure materials, cut tubing, weld and finishing clean-up.
- Acquire and maintain expert-level knowledge of our products.
- Accurately read and understand a tape measure, ensuring measurements are correct.
- Operate properly in a safe manner – Compound Miter saw, MIG welding machines, and various tools.
- Work well with others to get the project done.

Traits and Qualifications

- Certified Welder able to use MIG Miller/ Lincoln machines for aluminum and steel.
- High aptitude for prioritization, organization, and self-direction
- Experience in reading and understanding CAD and Shop Drawings
- Strong communication skills
- Ability to thrive in a highly independent role.
- Sense of humor
- Retention of product training and information given once or in small bursts
- Ability to lift and move at least 50 lbs. and have the flexibility to move freely
- Fabricating shop experience, carpentry, or other trade
- Experience with compound miter saw, band saw, drill press, grinders, plus other hand tools.

Benefits

- Overtime likely
- Medical, Dental, and Vision Insurance after 30 days
- Paid Holidays & PTO after 90-day introductory period
- 401K with match after one year

The proper candidate will be a hard worker that takes pride in their work. We encourage you to apply if you enjoy working independently and have the drive to do so with precision and enthusiasm.
